

## SPECIFICATIONS SHEET

**PRODUCT: ACETIC ACID, BR**

**CODE: AC0105**

REVIEWED: MAY, 2005

<b>SPECIFICATIONS</b>	<b>LIMITS</b>	<b>TEST METHODS ASTM, NMX</b>
Concentration, wt. %	99.8, min.	GC
Freezing Point, °C	16.24, min.	D-1493
Color, Pt-Co scale	10, max.	D-1209
Substances reducing dichromate, gr CrO <sub>3</sub> /lt	0.5, max.	NMX-K-142
Acetic Anhydride, wt. %	0.05, max.	CG
Formic Acid, wt. %	0.05, max.	D-3546
Sulfurous Acid	Negative	NMX-K-128
Specific Gravity @ 20/20°C	1.0505-1.0550	D-891

Description: Acetic Acid is a colorless and corrosive liquid with a strong and pungent odor, sour taste, very soluble in water and alcohol; it is good dissolving agent of various organic and inorganic compounds.

This specification supersedes other revisions.
