

SPECIFICATIONS SHEET

PRODUCT: ACETIC ACID, GLACIAL

CODE: AC0101

REVIEWED: MARCH, 2005

SPECIFICATIONS	LIMITS	TEST METHODS ASTM
Concentration, wt. %	99.8, min.	D-1493
Freezing Point, °C	16.24, min.	D-1493
Color, Pt-Co scale	10, max.	D-1209
Water, wt. %	0.16, max.	D-1364
Iron, ppm	0.40, max.	E-394
Acetaldehyde, wt. %	0.05, max.	D-2191
Formic Acid, wt. %	0.09, max.	D-3546
Specific Gravity @ 20/20°C	1.050-1.055	D-891

Description: Acetic Acid is a colorless and corrosive liquid with a strong and pungent odor, sour taste, very soluble in water and alcohol; it is good dissolving agent of various organic and inorganic compounds.

This specification meets ASTM D 3620-98.

This specification supersedes other revisions.
